DESCRIPTION PROJECT

Context and objectives

The « Mission Locale of the Creuse » intervenes on the whole department of Creuse, rural territory (22 inhabitants per km² against 116 at the national level). Its seat is located in Guéret (15 000 inhabitants), prefecture of the department and has all the services you would expect of a city of this size.

The « Mission Locale of the Creuse » welcomes young people from 16 to 25 years. Many of them feel a strong sense of isolation, both geographic and social. In addition, unemployment, poverty, the weight of dependence on their family are forcing them to not be able to project themselves into positive perspectives. However, these young users aspire and feel the need to escape, to broaden their professional and personal horizons, to know and be open to new people, without judgment. For two years, the local mission welcomes also more and more refugees (40 are currently accompanied by the "Mission Locale") with greater needs and strengthened support.

Welcoming young volunteers in the "Mission Locale" will allow exchanges with our users on the points of convergence, on the cultural differences, on issues of respective youth in each country (difficulties in employment for example) Number and profile of the participants : We wish to welcome 3 volunteers, one per year, for the period of the project from February, 2019 till February, 2021.

These volunteers should have like interests youth policies, an appetite for the accompaniment of young people in insertion. These people have to want to participate in animations with the welcomed public The volunteers must have the driving licence. The volunteers have to be strength of proposals to liven up the reception area and be relatively autonomous. We will favour motivation and commitment over diplomas.

Expected results and impact

By this project, we wish that the young people accompanied by the "Mission Locale" find the driving force to take charge of their own destiny into causes which are dear to them, by making their voices heard, by succeeding in their personal and/or professional projects.

To achieve that goal, we shall have beforehand to work on all the peripheral disincentives : regain taste in social life, know the societies' codes of conduct and way of life France, develop skills related to group living, building actions (evening games, debates,
