### "Kinderwelt am Frauenberg"

A Kindergarten, caring for 235 children in the ages of 3 months to the age of school enrollment. The team is working with an open concept which. That means children can choose by themselves which activities they like to do. Therefor the children have different opportunities to choose: creative-, role-, handicraft-, experiment rooms and a workshop for writing. As a team we accompany the children to unfold need-based. In doing so, we address the individual conditions of the children and promote their individual self-development. We are happy about a great variety of children in our institution. Our team has many years of experience with caring about European volunteers.
